Product Specification

Width: 150mm (+/- 10%)
Length: 2900mm

Installation Tools

Circular saw
Tape measure
Wood glue
Glue gun

Construction Guide

- Prep-work plywood/MDS is recommended before the construction. Please remove any kind of wall paper/film on th surface of the base.
- Apply a quality adhesive on the back of the Louvers. Apply a small amount of hot melt (glue-gun) on the back of the Louvers.
- Louvers can be installed in both horizontal or vertical direction. Screwing on the tongue interlocking space for better fixing.
- Circular saw to be used to cut required length
- For corners, combine the two grooves

Louver handling precautions

- Kindly consider 10mm used for overlapping.
- Avoid to direct sunlight and use only for interior. It can be faded in case of long exposure to sunray.
- Louvers can have a little slight different colour according to the lot number, so we recommend to install with same lot products.
- It could be colour difference between sample book and actual sales production.
- Recommend to keep in room temperature 24/48 hrs for acclimatization.
- Gently handle the edge of the product.
- Make sure the base where the Louvers are being installed is smooth and dust free.
- Louvers are intended only for indoor use.
- Louvers are water proof but prolonged exposure to moisture can do harm to the product.
- Cleaning only with a soft damp cloth without any chemicals or cleaning agents.
